SJIS'S FIRST NOBEL PRIZE LAUREATE

When American Charles J. Pedersen stepped forward to receive his joint 1987 Nobel Prize for chemistry from King Carl VI Gustaf on December 9th, he was fulfilling a personal dream that spanned three cultures and more than four decades of laboratory research.

The odyssey began on October 3, 1904, in Usankingo, Korea with Charles' birth to a Norwegian, Brade Pedersen, and his Japanese wife, Takino Yasui, from Kyushu. But it was at school in Japan that young Pedersen uncovered his dream. After attending the Convent of the Infant Jesus in Nagasaki for three years, he transferred into the fourth grade at Saint Joseph International, known then as St. Joseph College, run by the Marianist, Catholic teaching order.

As a student at St. Joseph in Yokohama, Charles Pedersen distinguished himself in scouting (with the first International Boy Scout troop), sports (setting a school broad jump record of 16 ft. 3 in.), literary fields (in both English and French), as well as science and mathematics. As a senior, he became one of the founding editors of Forward, a combination of school yearbook and literary magazine. The first three editions, bound together into a single book at the end of the year as *Volume I,* were produced under Charies Pedersen's guidance.

The words from Pedersen's 1922 valedictory address, reproduced in the third edition, still ring clearly across the six and a half decades: "We shall face the world with hope and try our best to make it a peaceful Christian world again .... The alumni have left a brilliant record and we hope we have done our bit for our Alma Mater .... Adieu, schoolmates, we must not loiter, for our motto is "Forward." In the class biography, Pedersen's classmate wrote, "Charlie plans to study chemical engineering and become an oil specialist," of the 17 year old prodigy. Sixty-five years later the fulfillment of young Charlie's plans were honored by the world in Stockholm, Sweden.

The St. Joseph Graduating Class of 1922 (back row: left to right) C. Pedersen, E. Babo-Vivenot, J. Ahrens, T. Anderson, D. Daver, L. Haum, L. Fachtmann (front row: left to right) E. Allcock, A. Worden, Bro. J.B. Gaschy (Principal), Bro, J.F. Janning (senior homeroom teacher), T. Worden, V. Jelteko

In 1922 Charles Pedersen graduated from St. Joseph at the top of his class and matriculated to the University of Dayton, Ohio, another Marianist institution well-known for its engineering school. He then went on to Massachusetts Institute of Technology where he received his Master's degree in Organic Chemistry. After graduation he selected the multinational firm DuPont where his laboratory research spanned 42 years and was amazingly fruitful in both practical and scientific accomplishments.

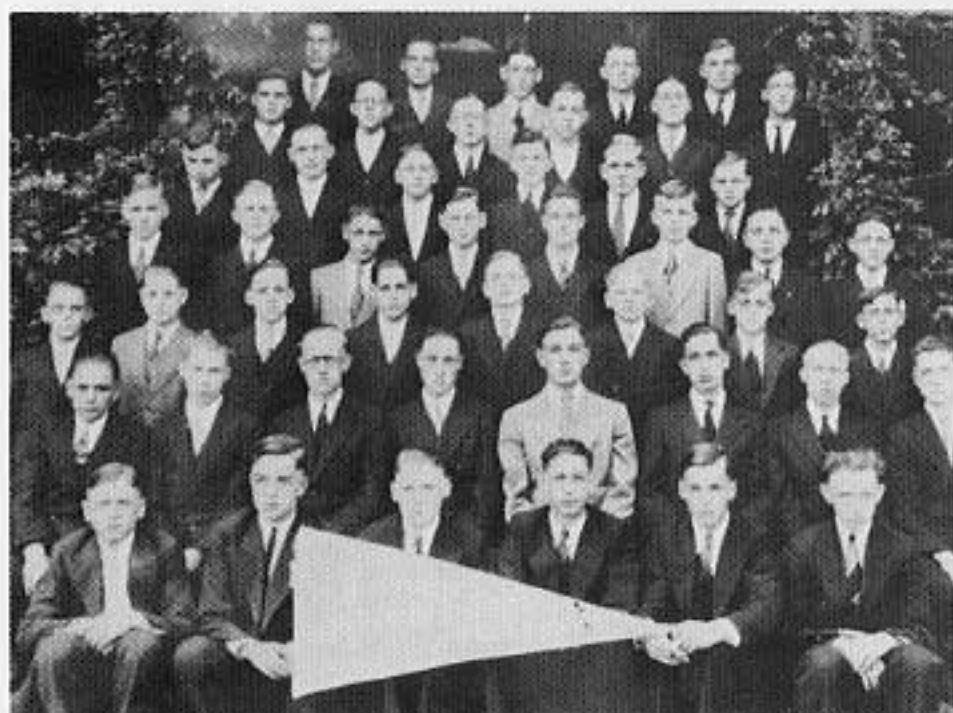
In July of 1987 Dr. Herman E. Schroeder, Charles Pedersen's former superior at DuPont, spoke on his behalf in Hiroshima. The event was held to commemorate Pedersen's monumental discovery of "crown" ether compounds announced in Japan twenty years ago. Mr. Pedersen was unfortunately unable to come himself for reasons of health. The following remarks are from Dr. Schroeder's speech.

"When Pedersen's research managers found out what a free and innovative spirit he had and how much he could accomplish, they loosened their reins and urged him to follow his own intuition; and he rewarded them with aflood of interesting and valuable discoveries...in his 65 patents and about 25 papers .... Charles Pedersen's story shows that the lines of demarcation between "basic" and "applied" research are blurred, and that it is the application of good science, clear thinking, and imagination that produces results in either endeavor.

"In life, as in science, Charlie was a fine student. A voracious reader with broad interests in arts, history and the natural and physical sciences .... The man who did all this was not after riches, glory, or status. He loved the thrills and problems of research and in his heart he most wanted his work to be worthwhile and so recognized. We could not find so deservin a more modest and unassuming person to honor today than my dear friend and associate Charles Pedersen."

50TH JUBILEE

Bro. Joseph Wasy S.M.

JUNE 7, 1987 MARIAN YEAR AUG. 15, 1988


Joseph Thomas Wasy, our Golden Jubilarian, hails from Baltimore, Maryland, where he was born on November 15, in the year 1917. He attended St. Vincent and St. Anthony Grammar School and graduated in 1932, when he entered the Marianist Postualte in Beacon, New York. It was in 1937 that he made his first vows and then his final vows in 1943. Ten members of his class celebrated their Golden Jubilee with him.

From the University of Dayton, Brother received a Bachelor of Science in Education in 1947. He received teaching certificates from Ohio and California to teach in those states. Post-graduate work was done at the Universities of Dayton, San Francisco, California State, Loyola-Marymount, Hawaii, Chaminade, and Sophia.

Brother's teaching career took him from New York to California to Hawaii and at present to Yokohama, where he has spent most of his life teaching youth for twenty-eight years in the Land of the Rising Sun. His favorite class seemed to be the Eighth Grade, having that grade for twenty-one years.

Our Jubilarian has been athletic director, basketball coach, baseball moderator, Assistant Principal of St. Joseph, Moderator of the Mothers Club, having that position for twelve years.

Pope John Paul II sent his Apostolic Blessing in June and Mr. Ronald Reagan, President of the United States, sent his message of congratulations to Bro. Joseph.

"My deepest gratitude to God, His Mother for their continual support and grace, and to you all who honor me in the Forward. God bless you!"

Congratulations on your 25 years of service at S.J.I.S.

SEPTEMBER

Tuesday, 1st
First Day of School

Many students re-entered the school entrance reluctantly on a sweat-dripping day to begin the school year full of "expectations."

Cross Country Season Begins

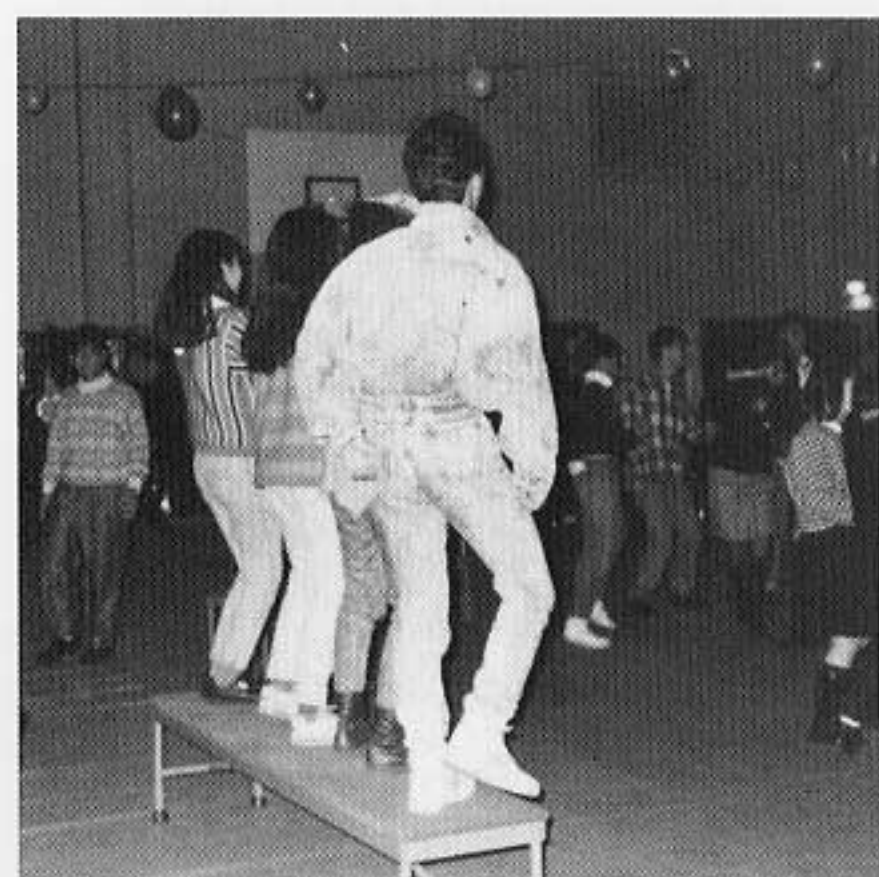
Even though this year's cross country team seemed to be weaker than last year, all the members tried their best. As a result, Maiko Sasaki was awarded the J.V. All-Star patch.

OCTOBER

Saturday, 10
Field Day

The 1987 SJIS Field Day champion turned out to be the red team with Kosuke as their captain and Kathy as their co-captain. Despite the "inevitable accident" at the opening pledge, it ended peacefully with no one getting seriously injured.

Thursday, 15

Announcement of Mr. Charles J. Pedersen (of the graduating class of 1922)'s joint winning of the 1987 Nobel Prize for Chemistry.


Saturday, 24
Dirty Diana

Social Committee sponsored their first dance, "Dirty Diana." Compared to the past years' dances, this one was a great success because it ended up as "black."

Girl's Volleyball Season Begins

Although this year's volleyball team had only two games against St. Maur and Y.I.S., they won both matches successfully by teamwork achieved under Kathy.

NOVEMBER

Soccer Season Begins

This year all the members of the soccer team were avid to win the league for three consecutive years and for Mr. Morgan who had been coaching for the past ten years. Just as we had expected, the championship for the league fell into our soccer members' hands at the game against St. Mary's.

Basketball Season Begins

This year's basketball team was active compared to last year. They participated in the tournament sponsored by A.S.I.J. and the result was . . . (ask Awa!)

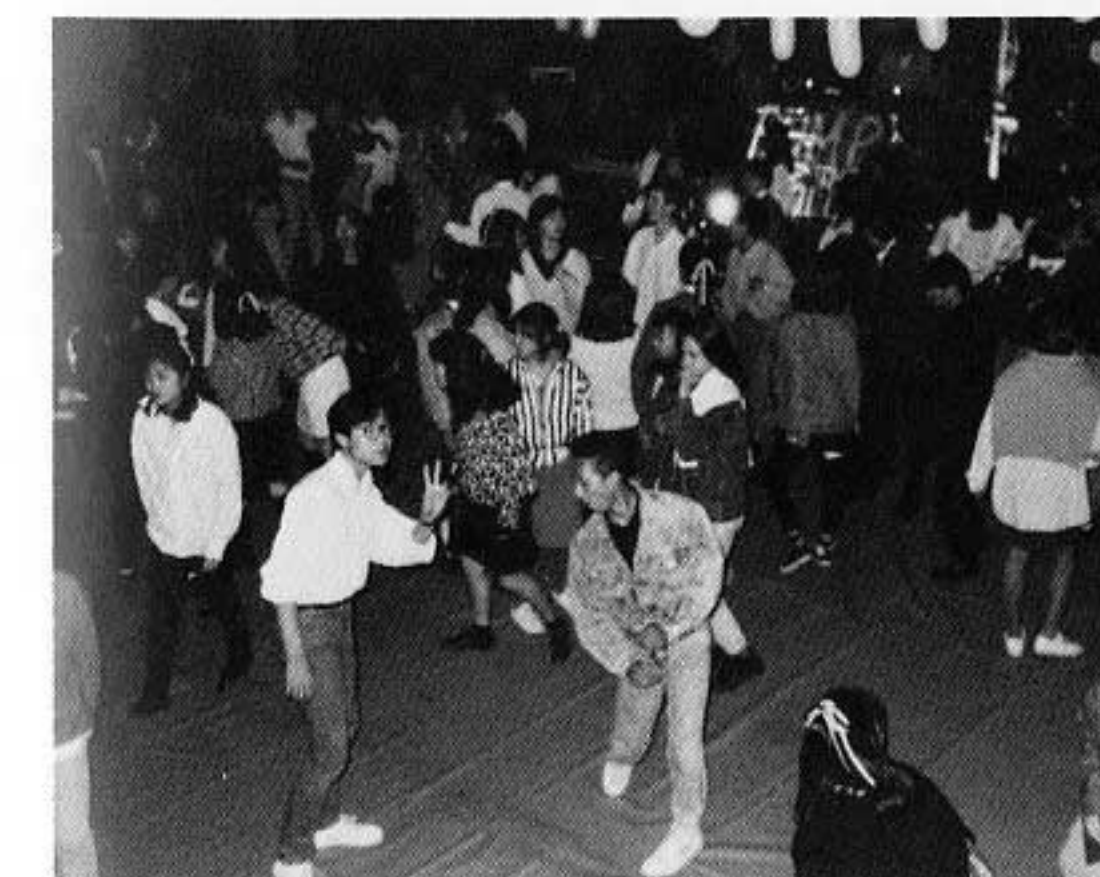
Friday, 20
Brainbowl

SJIS Brainbowl team, in spite of its effort, wasn't able to perform well at the contest held at Yokota. Although our team came into eighth place out of ten schools, Scott, the "brain" of the team, won the All-Star Patch.

DECEMBER

Wednesday, 9

Mr. Pederson, at St. Joseph from grade four to grade twelve, received his Nobel Prize from King Carl VI Gustaf.

JANUARY


Saturday, 30
Pump Up the Volume

Social Committee's second dance of the year, "Pump Up the Volume" was held. With Yuji as the guest DJ, it was quite successful.

FEBRUARY

Wednesday, 17 – Sunday, 21
Ski Trip

The annual ski trip with Mrs. Mori this year was organized by the help of Hosotani and Howard. Everyone who had fun at his trip should thank them for their efforts.

MARCH

Thursday, 3 – Saturday, 5
Soccer Tournament

This year the tournament was held at Zama. Every member of the "Saints" tried their very best in order to win the championship. Under ineffable pressure, they played against Zama in the Finals. It was a very exciting, close match. The two teams tied 1-1, but unfortunately, the Saints lost in PK.

Saturday, 19
Speech Contest

With Mr. Alff as the coordinator, seven brave SJIS orators (including one girl) demonstrated their talents at C.A.J. Although no one was able to win a prize, they all did their best. This year our speech team participated in Multiple Reading-the category in which we have not participated for the last seven years.

Girl's Basketball Season Begins

This year the team had twenty enthusiastic members. With their "guts", they played more games than they did last year.

Baseball Season Begins

With Mr. Mikami as a new moderator, this year's baseball team had more members than last year. Frequently, the old boys (Sunil Sadwani, Kazuhiro Mikami, Yong Suk Chang, Yoshimitsu Yamamoto, and Jochi Sho) came to help the members.

APRIL

Saturday, 2 – Sunday, 3
Bingo Food Festival

Despite the unpropitious weather for this big event, this year's Bingo ended in a great success due to the "powerful" mothers of some students.

Friday, 15 – Saturday, 16
Still Life

SJIS Drama Club's biggest performance of the year was "Still Life". With Mio as the heroine, the play was a great success.

Thursday, 21
Math Contest

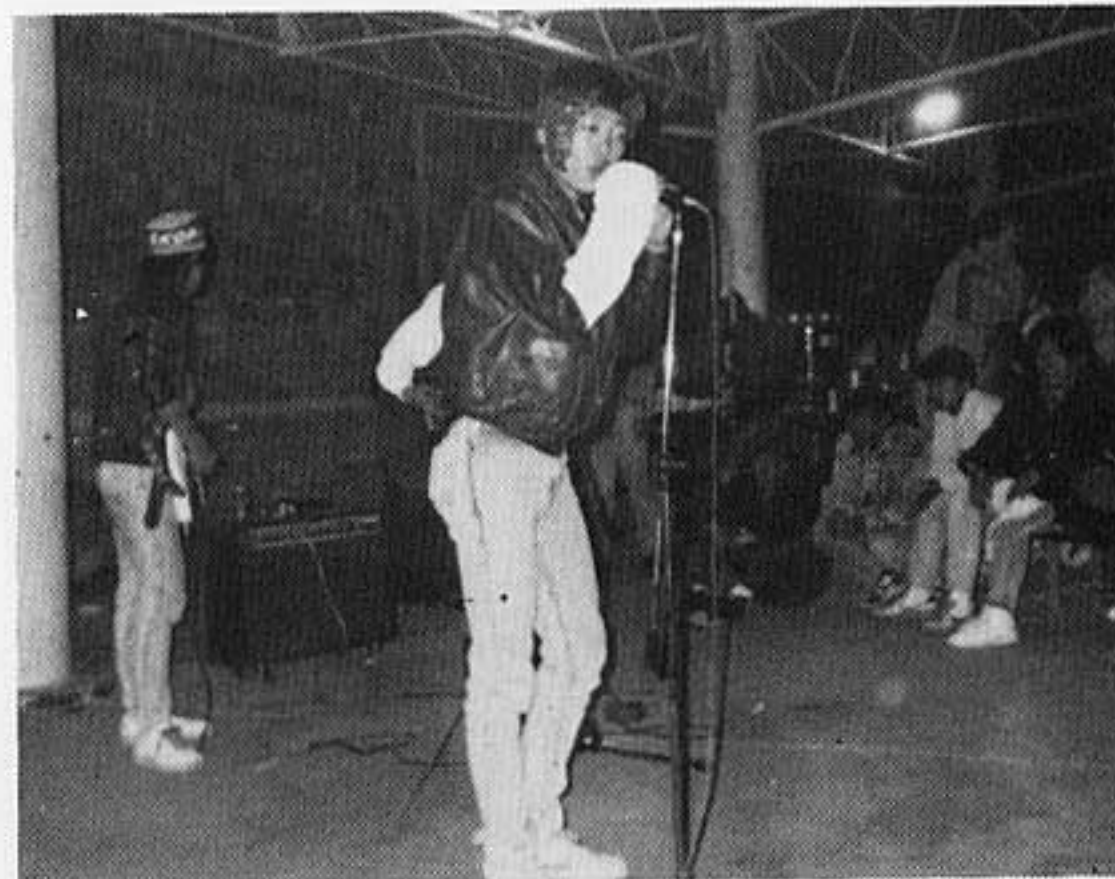
The annual math contest was held at St. Mary's International School. All the students who had participated tried their best. M. Sakairi took second place in his category.

Friday, 22
Student Exchange

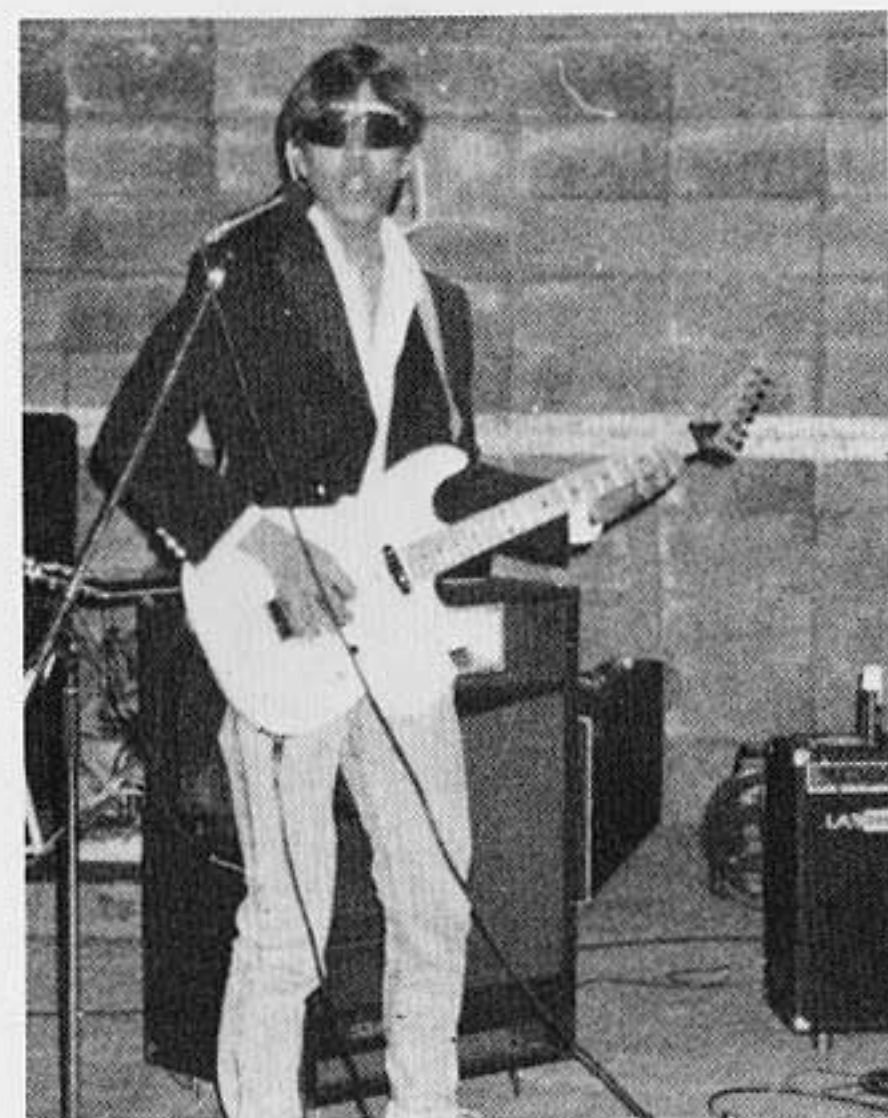
This year's student exchange was with Seisen International School. The students from Seisen and our school seemed to have enjoyed visiting each other's school.

Friday, 29
Honmoku Festival

This year the whole high school had participated in the Honmoku Festival sponsored by Yokohama city. All the students were delighted to be able to miss classes for the whole day.

MAY


Wednesday, 4 – Friday, 6
Spirit Week

Every year the spirit week is becoming better, and the students as well as the teachers are jovial and energetic, which is a good indication that the spirit week does educe spirits.


Saturday, 14
Rock Show "Beat Emotion '88"

The last major event of the Student Council fund raising project was the rock show, "Beat Emotion '88" sponsored by the Welfare Committee. Although the turn out wasn't all that great, the excitement prevailed in the hearts of the attendants and the performers

Monday, 30 – Friday, 3
Senior Excursion

In order to make Bro. Kelly the expert of Okinawa, this year's senior class also chose to go to Okinawa just as the past seniors had done.

JUNE

Thursday, 9
Baccalaureate Mass

Following the tradition, the mass was held at SJIS Chapel and the dinner at Y.C. & A.C.

Saturday, 11
Eighth Grade Graduation

The Class of '92 graduated from grade school with innumerable memories and hopes for the future.

Sunday, 12
Senior Graduation

Finally, the troublesome class had somehow managed to graduate from "this" school where we had studied, learned the morals of "life", cried, gotten angry, and smiled. The teachers might forget what they had taught us, but we will never forget what we have learned here.

FACULTY

Higher Ground
I know the truth
But I can't say
And I have to turn my head
And look the other way

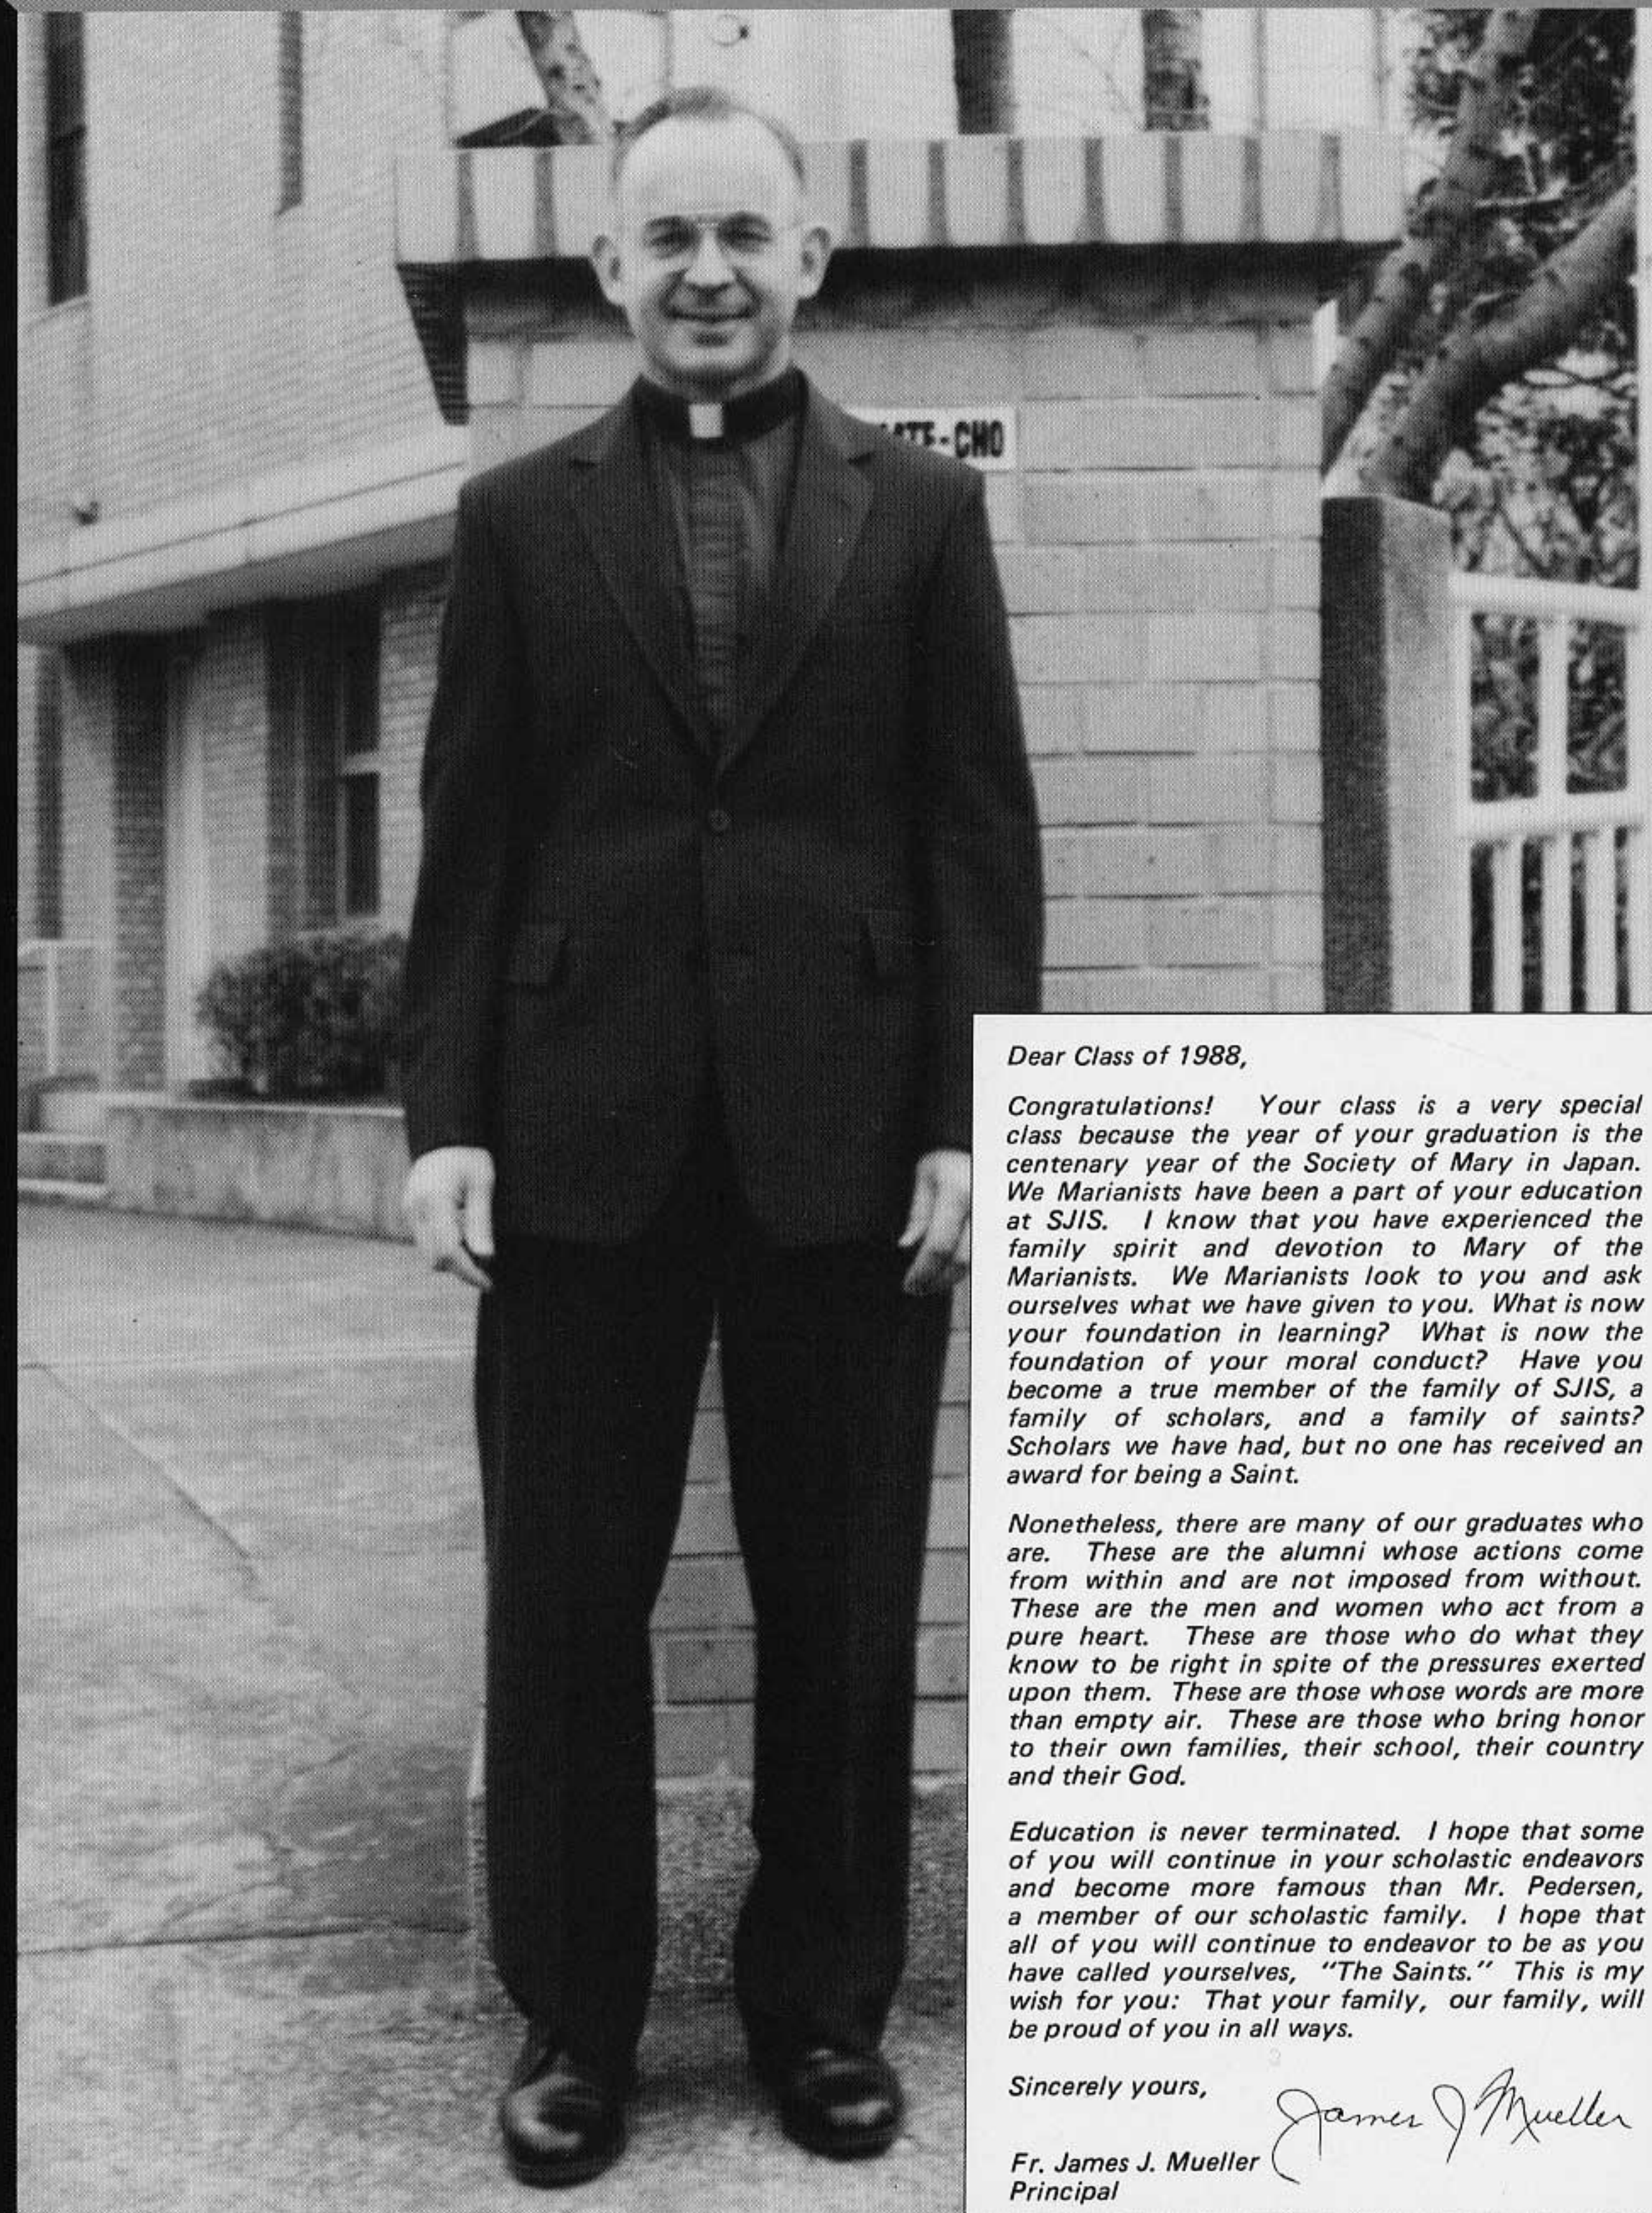
I'm not afraid
And I won't lie
As long as I see no wrong
I won't need to testify

I see the world
And I'm looking from a high place
Way above it all
Standing on higher ground

I breathe the air
While they're running in a rat race
Way above it all
Standing on higher ground

I feel the blow
But I don't speak
And I have to close my eyes
Pretending I'm asleep

Well I see the tears
But I don't cry
As long as I do no wrong
I don't need an alibi

Fr. JAMES MUELLER


Dear Class of 1988,

Congratulations! Your class is a very special class because the year of your graduation is the centenary year of the Society of Mary in Japan. We Marianists have been a part of your education at SJIS. I know that you have experienced the family spirit and devotion to Mary of the Marianists. We Marianists look to you and ask ourselves what we have given to you. What is now your foundation in learning? What is now the foundation of your moral conduct? Have you become a true member of the family of SJIS, a family of scholars, and a family of saints? Scholars we have had, but no one has received an award for being a Saint.

Nonetheless, there are many of our graduates who are. These are the alumni whose actions come from within and are not imposed from without. These are the men and women who act from a pure heart. These are those who do what they know to be right in spite of the pressures exerted upon them. These are those whose words are more than empty air. These are those who bring honor to their own families, their school, their country and their God.

Education is never terminated. I hope that some of you will continue in your scholastic endeavors and become more famous than Mr. Pedersen, a member of our scholastic family. I hope that all of you will continue to endeavor to be as you have called yourselves, "The Saints." This is my wish for you: That your family, our family, will be proud of you in all ways.

Sincerely yours,

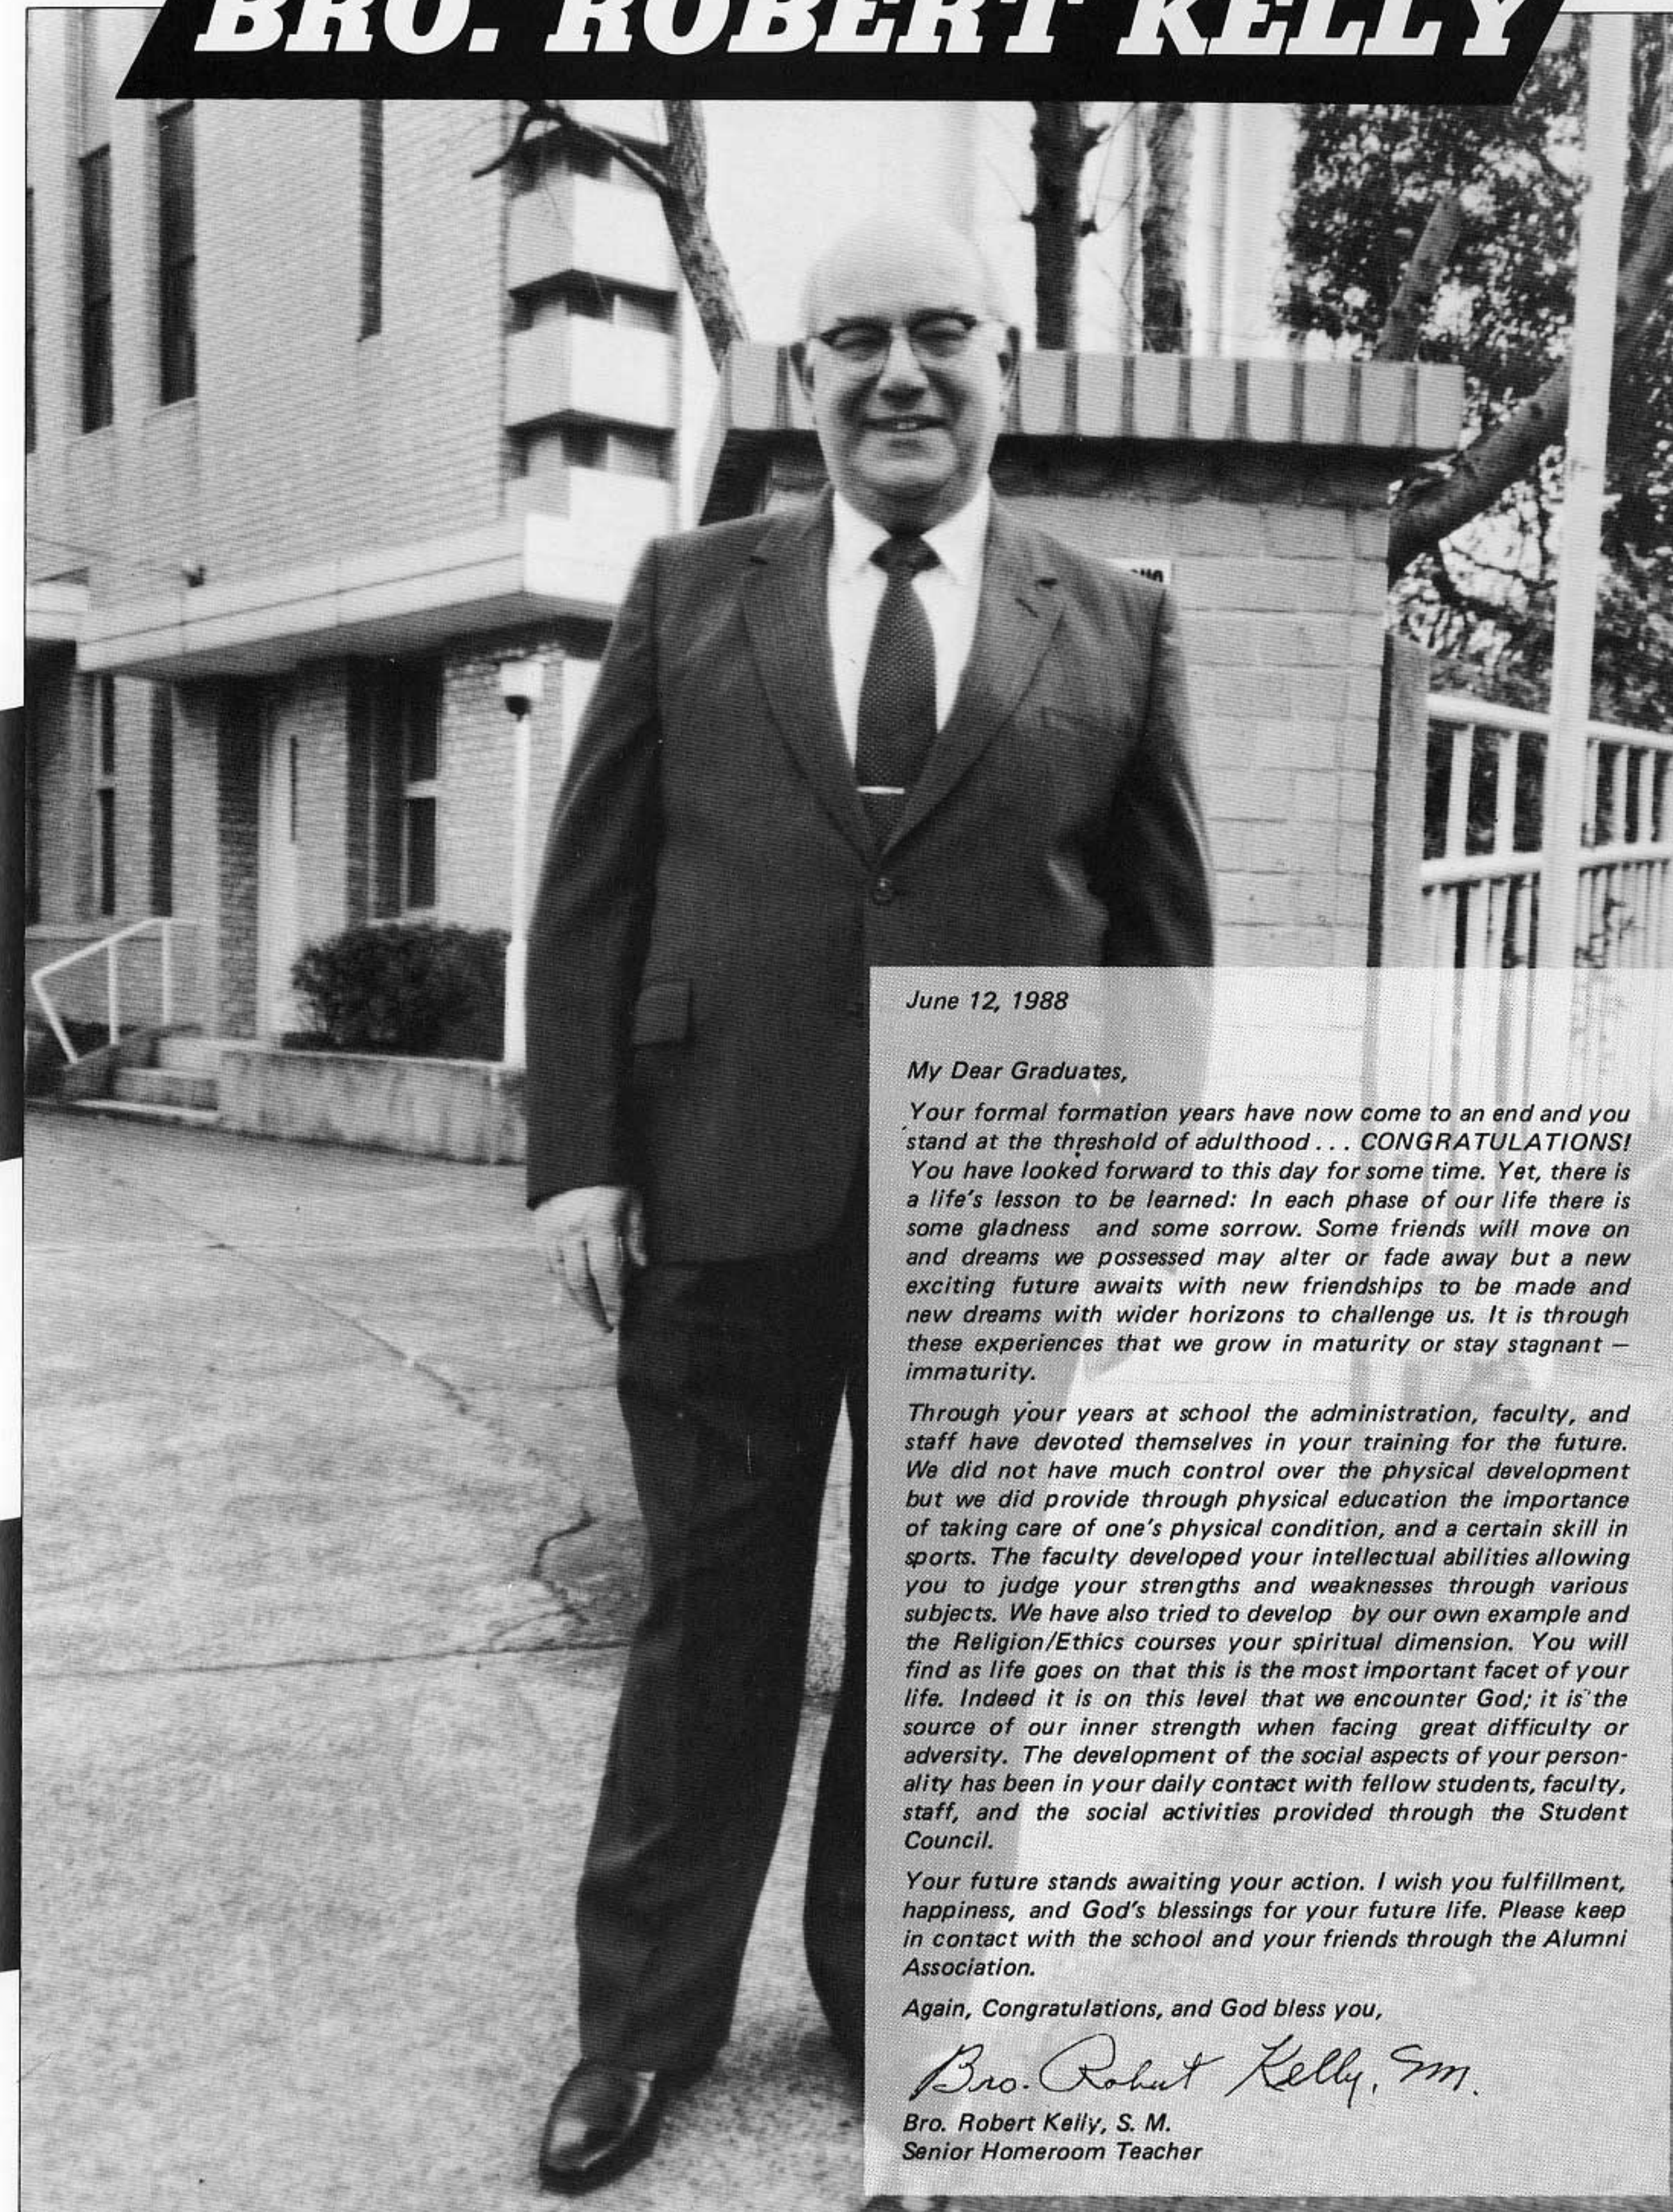
BRO. ROBERT KELLY


June 12, 1988

My Dear Graduates,

Your formal formation years have now come to an end and you stand at the threshold of adulthood . . . CONGRATULATIONS! You have looked forward to this day for some time. Yet, there is a life's lesson to be learned: In each phase of our life there is some gladness and some sorrow. Some friends will move on and dreams we possessed may alter or fade away but a new exciting future awaits with new friendships to be made and new dreams with wider horizons to challenge us. It is through these experiences that we grow in maturity or stay stagnant — immaturity.

Through your years at school the administration, faculty, and staff have devoted themselves in your training for the future. We did not have much control over the physical development but we did provide through physical education the importance of taking care of one's physical condition, and a certain skill in sports. The faculty developed your intellectual abilities allowing you to judge your strengths and weaknesses through various subjects. We have also tried to develop by our own example and the Religion/Ethics courses your spiritual dimension. You will find as life goes on that this is the most important facet of your life. Indeed it is on this level that we encounter God; it is the source of our inner strength when facing great difficulty or adversity. The development of the social aspects of your personality has been in your daily contact with fellow students, faculty, staff, and the social activities provided through the Student Council.

Your future stands awaiting your action. I wish you fulfillment, happiness, and God's blessings for your future life. Please keep in contact with the school and your friends through the Alumni Association.

Again, Congratulations, and God bless you,

Bro. Robert Kelly, S.M.

The Traveller

The traveller is always leaving town
He never has the time to turn around
And if the road he's taken isn't leading anywhere
He seems to be completely unaware

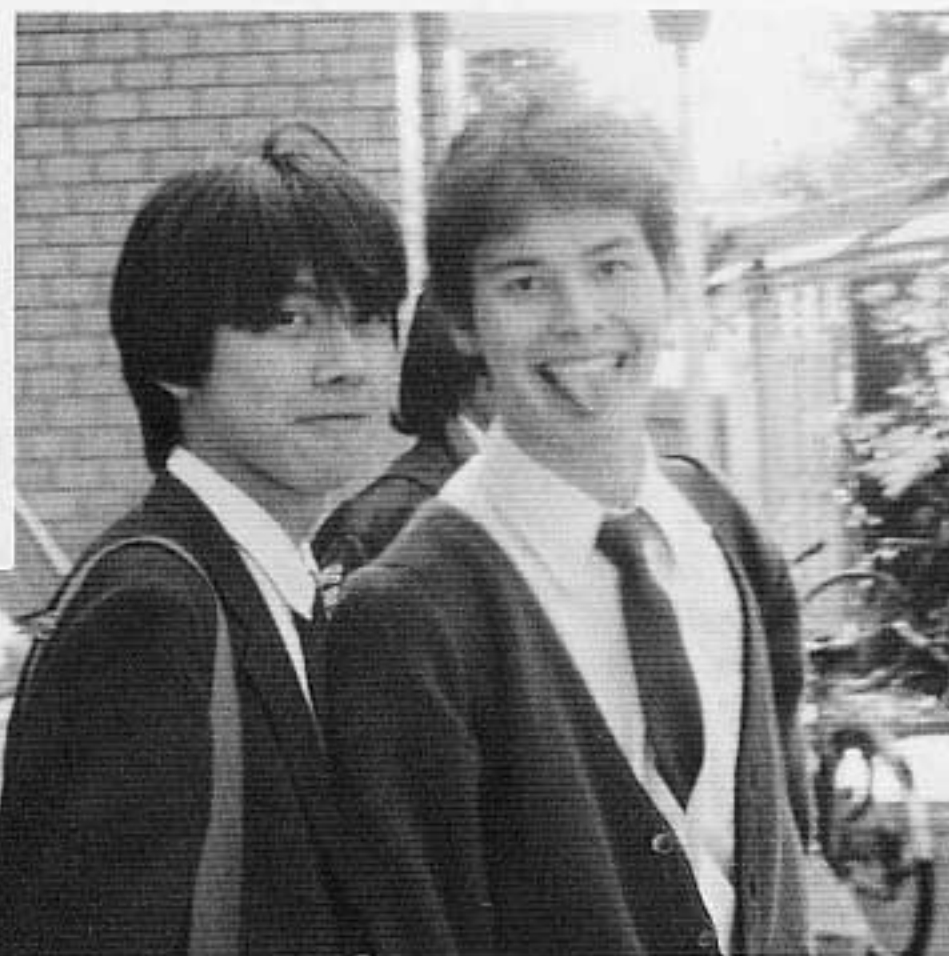
The traveller is always leaving home
The only kind of life he's ever known
When every moment seems to be
A race against the time
There's always one more mountain left to climb

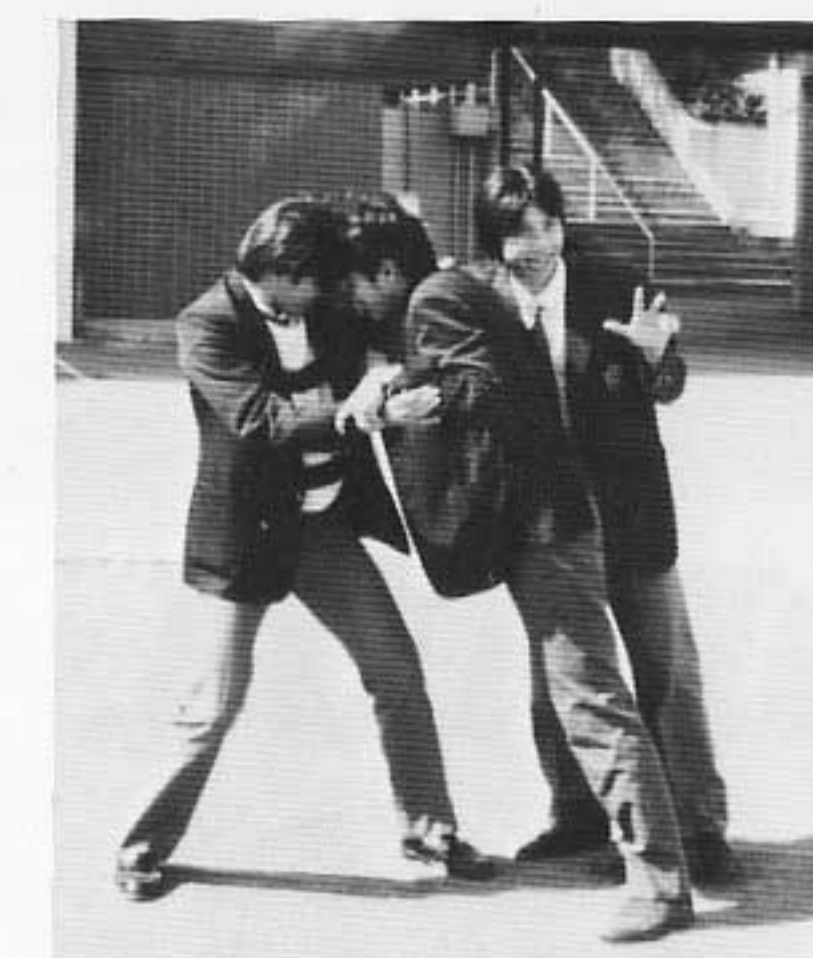
Days are numbers
Watch the stars
We can only see so far
Someday, you'll know where you are

Remember
Days are numbers
Count the stars
We can only go so far
One day, you'll know where you are

The traveller awaits the morning tide
He doesn't know what's on the other side
But something deep inside of him
Keeps telling him to go
He hasn't found a reason to say no

The traveller is only passing through
He cannot understand your point of view
Abandoning reality, unsure of what he'll find
The traveller in me is close behind





JUNIORS

Dr. I. Sair

This year we have a number of female students in the junior class. Their influence on the class is generally positive, and the students tend to be more mature. With individuals of varying temperaments present in the class, the environment is very conductive for real growth. This growth is imminent in their maturity and motivation. Everyone is striving to excel academically without falling back in sports or in social life.

"Progress" is the term which comes to mind when one thinks of the 1987 – 1988 year with the sophomore class. St. Joseph's can now be proud of a well-rounded, maturing class well on its way to graduation and well on its way to taking its place in the world.
In the next two years we expect to have one of the finest classes we have ever had at SJIS.

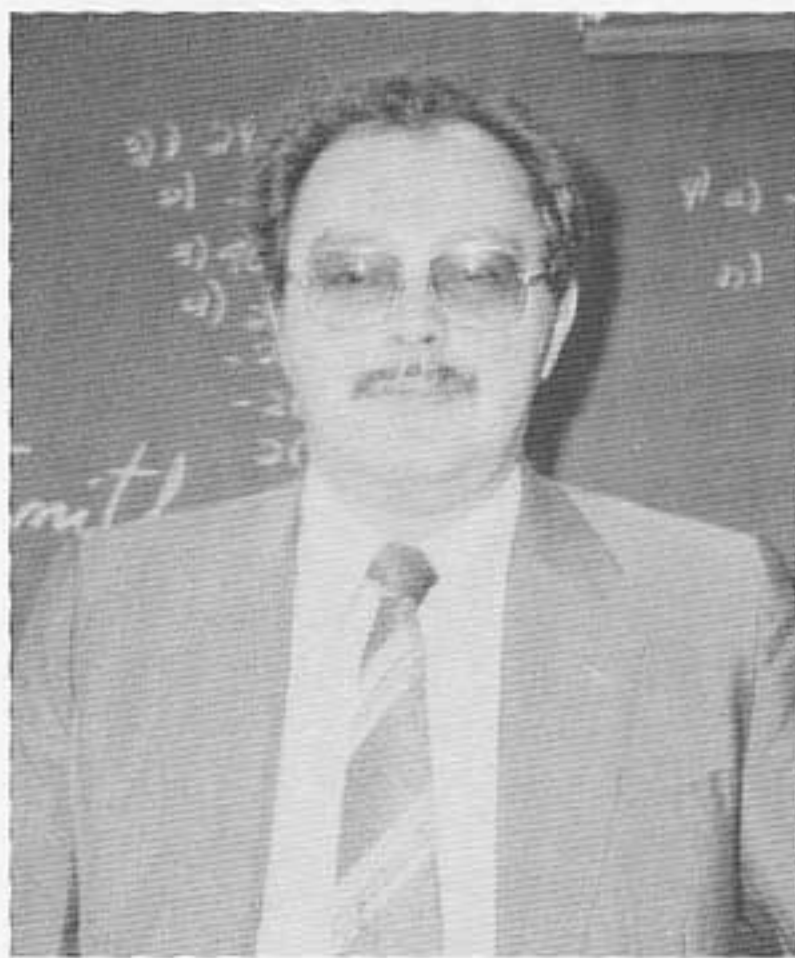
FRESHMEN

FRESHMEN


Mr. A. Stavrinaky

Since practically all our teachers are unanimously agreed on pronouncing this class to be the best one in high school, I prefer not to add any more plaudits. Praise acts as an incentive to further improvement on the part of the more mature students, whereas immature individuals often misinterpret it as a signal to stop persevering. This class, as any other, has its share of both types of youngsters. Consequently, I choose to withhold my praise until they have given further proof of their intergrity and excellence.

If any praise is to be bestowed at this moment, it should go first and foremost to their parents who have, for the most part, raised them with duty and devotion, and also to the teachers they have had until now. Mr. Eymard has been the most recent one and deserves due credit, but my students should also manifest gratitude and fidelity to those who have made them what they are now from the earliest grades on.

I hope everyone, especially my "Lucky Seven", will continue to make me proud of them. I have been disappointed many times by other classes once they were no longer under my jurisdiction and guidance. Let this class be an exception. Let all the teachers say at the inevitable moment of parting crowning their senior year: "Here was a class. When comes such another?"

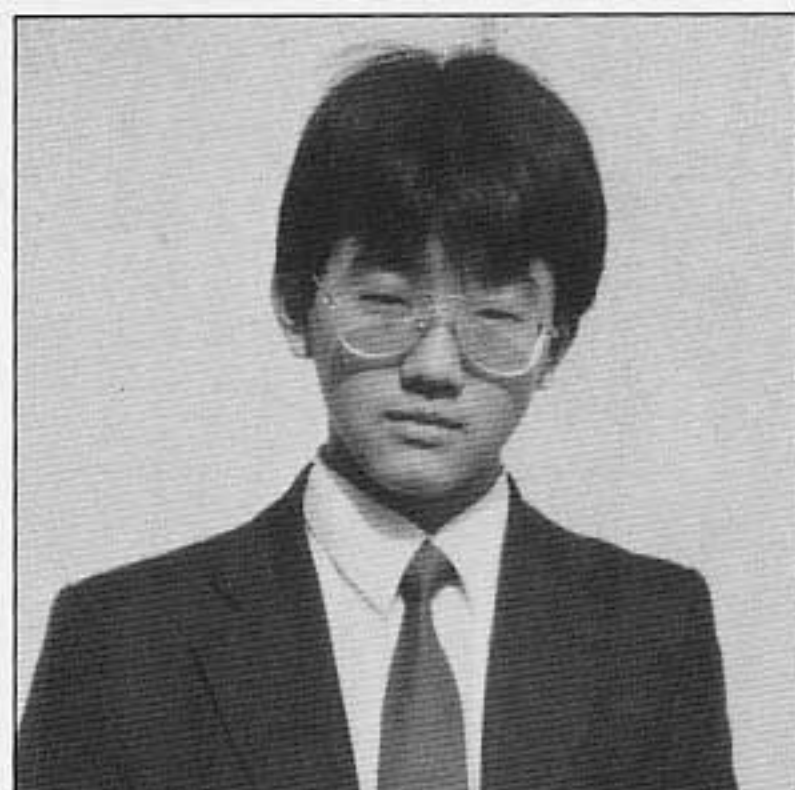
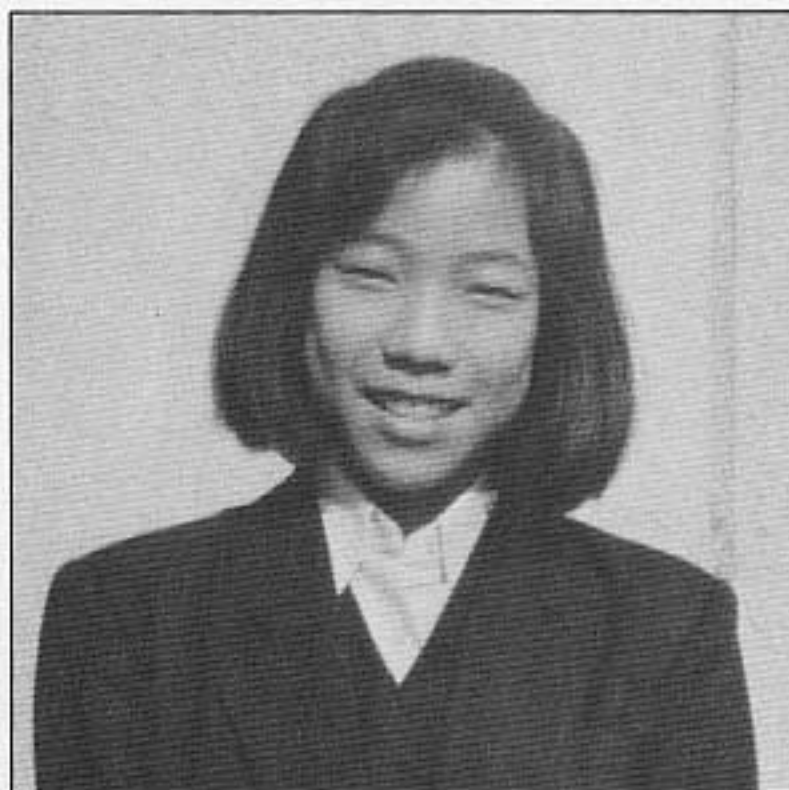
That's What Friends Are For

And I never thought I'd feel this way
And as far as I'm concerned
I'm glad I got the chance to say
That I do believe I love you
And if I should ever go away
Well then close your eyes
And try to feel the way we do today
And then if you can remember

Keep smiling Keep shining
Knowing you can always count on me
For sure
That's what friends are for
For good times and bad times
I'll be on your side for ever more
That's what friends are for

Well you came and opened me
And now there's so much more I see
And so by the way I thank you
And then for the times when we're apart
Well then close your eyes and know
The words are coming from my heart
And then if you can remember……


Mitsutoshi Akinaga:

He is a kind, handsome, monkeyish boy. He looks clever when he wears his eyeglasses. He is actually a bright boy. (Sammy)


Sanae Aoyagi:

She looks mild-mannered from the outside, but she actually isn't. She just "loves" to fool around by tickling us, but she's really a friendly type and everyone likes her. (Arisa)

Soo Jung Chai:

She is awfully smart and is maturing quickly. She loves to laugh and joke around, but she knows when and how to be serious. (Mary)

Noriomi Chiba:

He has one of the longest legs in our class and is known as an active and energetic student during the P.E. class. (Soo Jung)

19

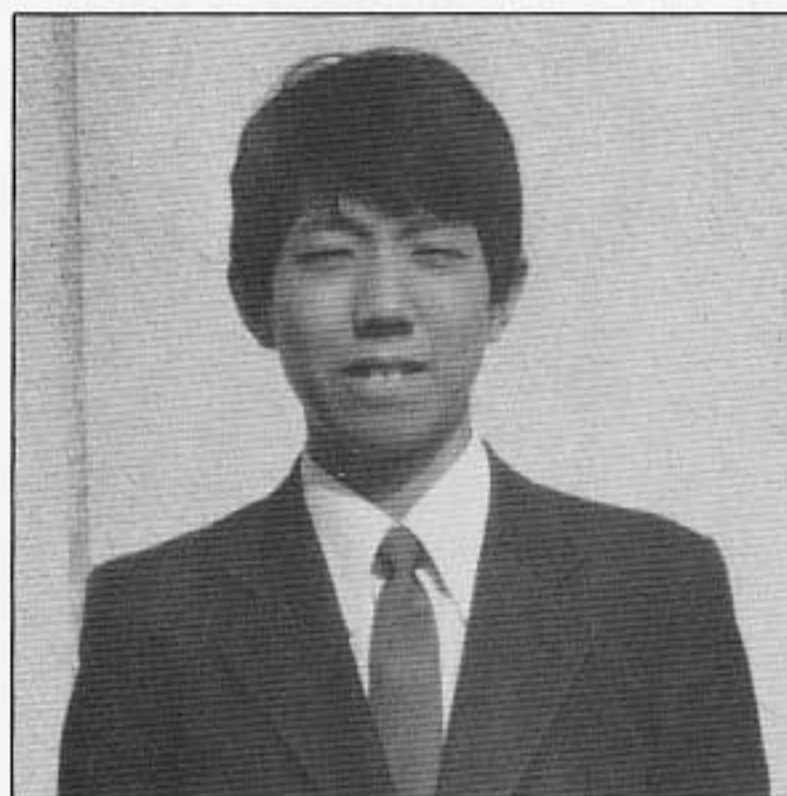
Yoko Ema:

She is a hard worker who gets good grades on tests. She is also a fast runner. I think she will be a normal girl when she becomes big and twenty-four (Sei)

Ine Jane Fleming:

She is known as an attractive and friendly girl. I enjoy playing field hockey with her, but she likes all the blond boys in the world. (Yoko)

Natsuko Fujiyu:

From outside she looks very prim and just a hard working student, but she is very fun to be with although she only talks about H. M. (Sanae)


Hiroaki Furuya:

He is a quick-witted, hard-working boy. Maybe his dream is tq become a mathematician because he is strong in math. He is also a joyful, helpful, and clever boy. (Farrukh)

Cheryl Ann Haebig:

I think she is known as one of the most dramatic girls in our class because she's in drama club, but sometimes she gets on people's nerves. (Tizza)

Arisa Hata:

She is constantly trying to invent things which is very hard, but some day I know she will invent something worthwhile because she is smart. (Cheryl)

Shinichi Hayama:

He, our vice-president, is a funny guy. I really don't understand him, but I will never forget the word he said "I'm gonna fight!" (Mitsuaki)

Toshisuke Hayami

He reminds them of Santa Claus because he is plump and jolly, and whenever he coughs, there seems to be an earthquake. But Toshi has a wonderful sense of humour and can be very helpful. (Michele)

92

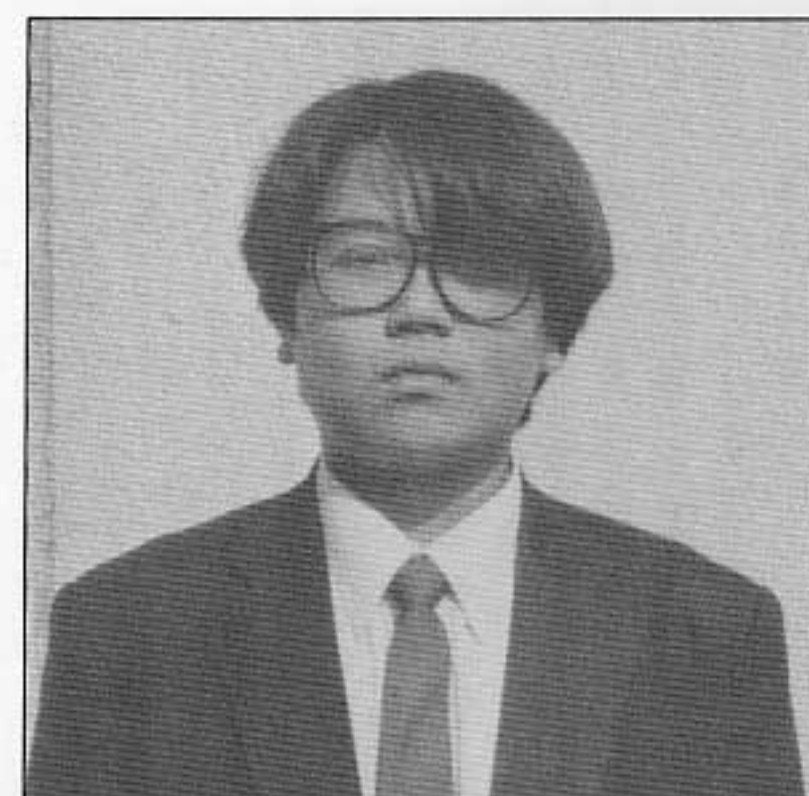
Michiru Hibino:

She is the most friendly person in our class. She is somehow careless, but she always keeps promises. (Soo Jung)

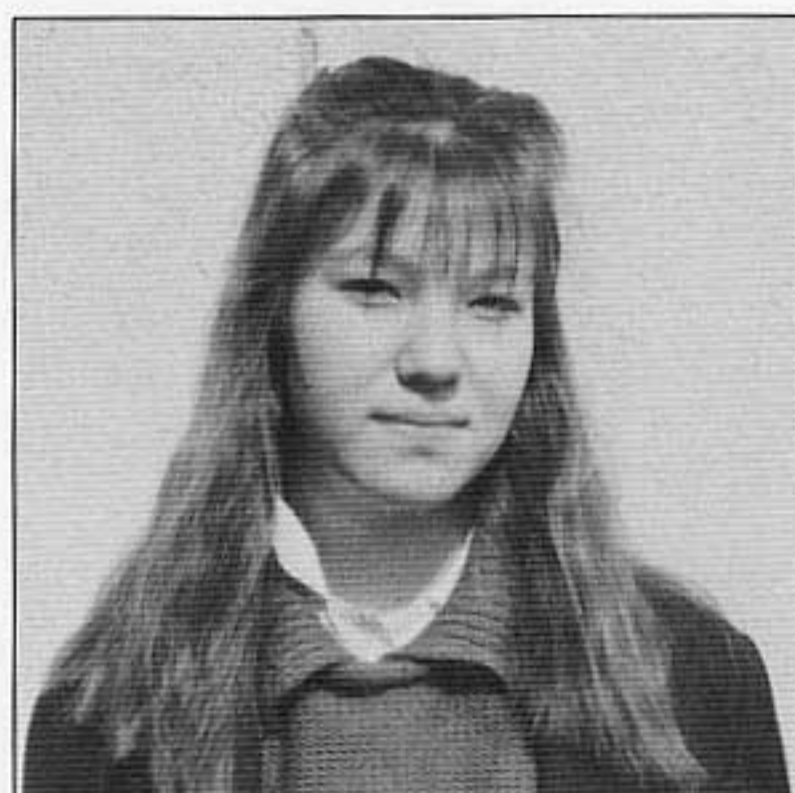
Maria Tizza Horii:

"Michiruuu---" and I know she's calling me. An active and honest girl-Tiza. She's here with me when I need her help. My best moment is being with her. (Michiru)

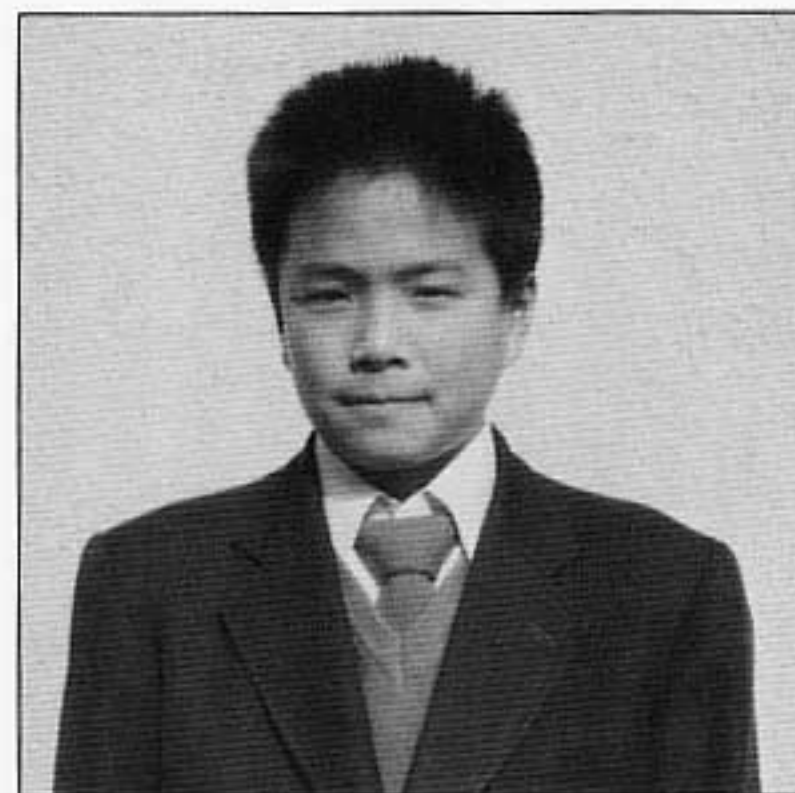
Masumi Inoue:

She is a very kind and fashionable girl, BUT she always keeps a stack of books full of boyfriends' pictures-watching and smiling. (Ine)


Masakazu Iwamoto:

He is relaxed all the time. He is like a PUMPKIN MAN. (Masumi)


Michele Ann Jarosinsky:

She reminds me of a Timotei's Mild Shampoo's commercial. Her deep, mysterious eyes like that of River Phoenix and her intelligence totally mystify me. (Naoki)


Sei Kamihara:

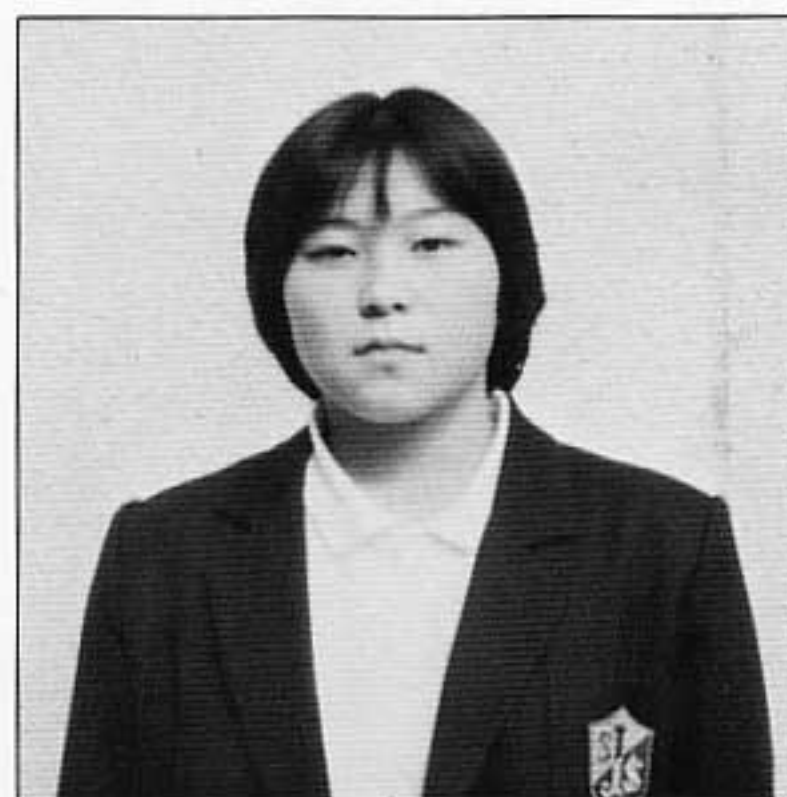
He is a very energetic boy since he hangs around with active Sammy. He is meek, shy, and blushes a lot. He is a pretty honest frog except he calls people by the names which they really aren't. (Michele)

Mitsuaki Katsumata:

He is a FUNNY guy
And he always likes to lie
He is not shy while playing soccer
He is like a dragonfly
And makes the team win with a fine play. (Shinichi)

Hun (Isao) Kim:

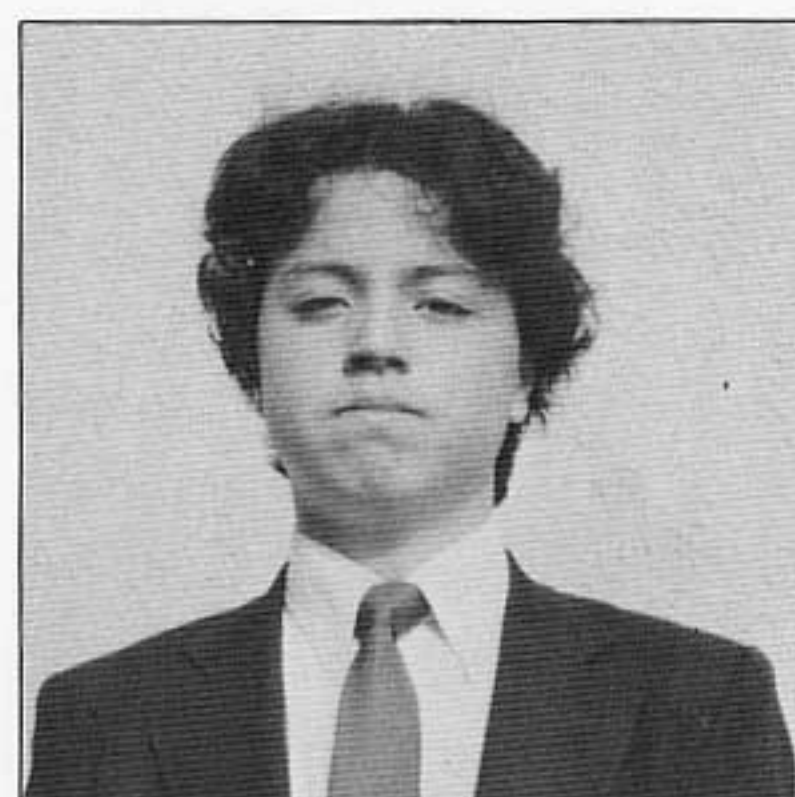
He is an active, quiet, and kind boy. He is a genius in math, and his favorite sport is basketball. (Farrukh)

1992


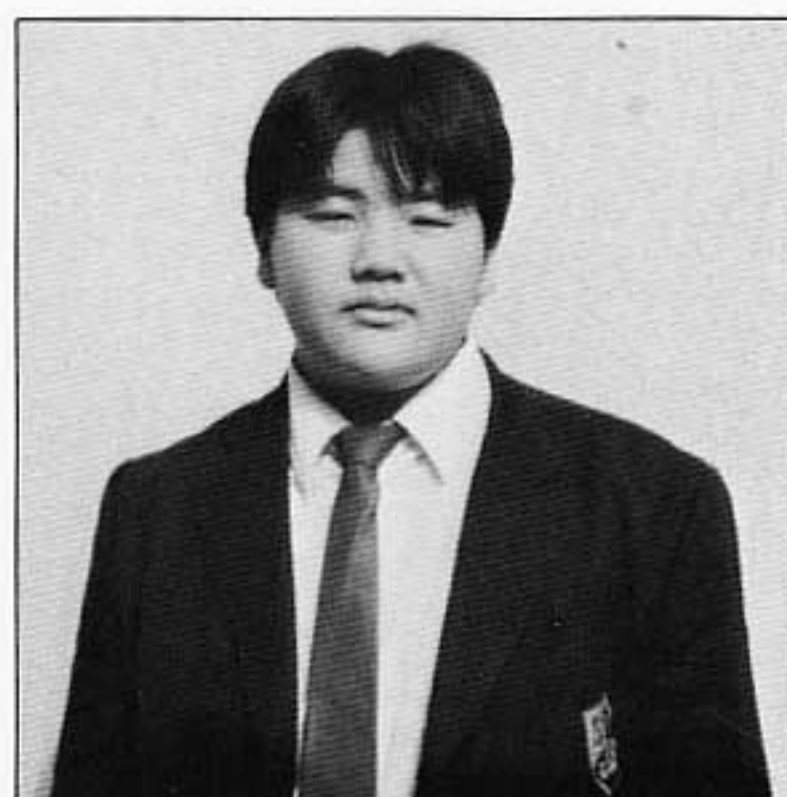
Yukari Kinoshita:

I can laugh if she laughs. I don't know why. I think she has super power to make people laugh. (Michiru)

Iwao Mikami:

He is a handsome boy. When he graduates, I will be laughing. He was saying that he could get 3.00, but he is one of the lowest G.P.A. holders, but he could succeed to go to ninth grade. (Sammy)


Jon Ryoo Miller:

He is a clever student, but he is sometimes Boketeru!! (Iwao)


Joji Ogino:

He is a sometimes quiet and adventurous boy. Even if something happens, he never gets worried

Farrukh I. Sair:

He is a clever, but shy boy. He likes to challenge many different things. He will probably become a famous scientist. (Tesuki & Jon)

Maiko Sasaki:

She is always willing to help even though she is a little shy. She is a genius. (Mary)

Naoki Takagi:

She reminds me of a mouse. She seems to be very shy and timid. She likes to follow fashion and is continuously messing up my hair! (Michele)

Mary Colleen Trousdale:

Her one ambition in life is to be a sweeee----t entertainer who never stops talking. (Naoki)

Samuel Sheu-Sum Tse:

He is a very ambitious, energetic clown of the class who will succeed in life. He is going to become a comedian who goes to work on his skateboard. (Mary)

Tetsuki Watanabe:

He is a bit of hippopotamus (not as bad as Joji and Masakazu). He is a little wild and seems to try to work hard in school. It seems like he is always tripping over his own feet. (Michele)

Consisting of 15 boys and 15 girls, the 8th Grade this year is a truly coeducational class symbolic of the present SJIS which turned fully coeducational in 1985. Both the boys and the girls are academically oriented with approximately one third on the Honor Roll. They are athletic and social as well, participating in many of the various extracurricular activities offered at SJIS – soccer, basketball, volleyball, cross country, field hockey, choir, drama club, interact, and boy scouts. I am certain this class will set a perfect example for classes in the future.

GRADE SCHOOL (7~3)

Gradeschool Kid

It's something else to see the way you're growing
From a sweet little baby to a grown up
And I pray though darling I've no way of knowing
That you'll discover a beautiful world
As you skip down the street
And hold your books so tightly
Tell me what you are learning in your A B C

Are you dreaming of all the many things you might be
You know that we're just waiting to see
Gradeschool kid, you're such an inspiration
Gradeschool kid, you're as fresh as the breeze
You've got the whole world
Just waiting for you
You're really something, something to see

It's easy to worry in a world of trouble
When there's nothing but bad news
Trying to bring you down
But life doesn't have to be an uphill struggle
There's still some wonderful things to be found
There is sadness and confusion in our hearts
And the world prepares to fight
As it tears itself apart — it isn't fair

7 GRADE SCHOOL

Seventh

Mr. C. Chang

Our 7th Grade is a tapestry of eighteen unique personalities — five girls and twelve boys and our homeroom teacher, representing five cultures and three religions. And we are continually changing. Sometimes we are selfish or rude; most of the time we are generous and kind. Sometimes we are gloomy or jealous; most of the time we are happy and friendly. We make many mistakes, but we make it a point to learn from them. Our goal is one: That we may be better human beings tomorrow than we are today.

Flash Dance

First when there's nothing
But a slow glowing dream
That your fear seems to hide
Deep inside your mind,
All alone I have cried
Silent tears full of pride
In a world made of steel,
Made of stone
Well I hear the music
Close my eyes, feel the rhythm
Wrap around, take a hold
Of my heart

What a feeling
Seein's believin'
I can have it all
Now I'm dancing for my life
Take your passion
And make it happen
Pictures come alive
You can dance right through your life

Not bad. Main contributors: playwright/actress Yamaguchi; new talent Yamagata; lighting/sound engineer Nakagawa, the Elder. Most of the others "hibernated" from September till April. In general, more "incandescence" and projection needed. Let's aim for more seriousness and dedication next year.

1988 was a year of new beginning for our photo club. The members accomplished a great deal of work. They worked hard to improve their photography skills and even participated in photography contests. Without the devotion of these members, the photo club wouldn't have succeeded as much as it did last year. Thanks a lot!

1987 – '88 has been the most satisfying of my past ten years with the SJIS Chronicle. The skillful staff worked unimaginably hard to master the demanding complexities of "the Mac" and "Pagemaker" to produce three interesting, representative and polished editions. Although I'll miss all the seniors when we come back in September, the Editor (and the person who deserves the most credit for the Chronicle's butterfly – like metamorphosis) Alex junior photographer, but I'm sure he'll go Forward. Thanks staff – you've been perfect.

Although the SJIS Brainbowl team is about to be double-punched (losing the seniors, especially Scott, Miri, and Michael; as well as Dave Young) I'm confident that the up-coming brains of the elementary and junior-high will fill their shoes. As every year, it has been an honor to be with such a super smart group (I hope some of your intelligence has rubbed off on me).

Reach For The Top

Put your hand in mine
I know where we can go
It's anywhere you want to be
Hear the calling before you have a change of heart
Take the challenge !!
And don't give up before you start
It's all up to you
Reach for the top
Don't give up on your dream
Reach for the top
It's all within your reach so ...
Reach for the top

You hear a voice, it's telling you to stop
It's just an echo in the night
Stop the feeling that you can't do what you want
Start believing what has been there from the start
That it's all up to you

The 1987 – 88 basketball season was a very satisfying one for both the players and the coach in that we were able to play 15 games altogether. Although we ended the season with a 7 – 8 record, our experience (including the disappointing results at the ASIJ Tournament) should be a definite asset to next year's young team.

Was I really the coach? Well, we all learned sportsmanship and endurance, which is actually more important than anything else. Aren't we all glad that there is no more practice until 6:30, four times a week? I personally enjoyed everything, though.

Thanks to Mr. Yoshiaki Kobo, Kazuhiro Mikami ('84), Sunil Sadhwani ('84) and Yong Suk Chang ('85) for their help in training the team.

GS ACTIVITIES

You're Not Alone

Sometimes we suddenly realize
That we're just so powerless
There are so many things in this world
Too hard to deal alone

Turn around and open your eyes
There's got to be somebody
Ready to give you a hand
You just can't see because
You are blinded by the wall
You've built around you

Once you get started
It's not that difficult
Search into the dark
And take the hand that's awaiting you

Nobody's really alone
They just think they are

Really, nobody's alone

Jimmy's team performed well, in spite of the fact that so many players had to play a position for the first time.

Chris's team didn't have too many games, but they are stepping stones for the Junior High Tournament next school year.

Mitsuaki's team performed well in the Junior High Tournament. We came in first place for the preliminary round, and made it to the finals, again against St. Mary, three years in a row. 2nd place is nothing to be ashamed of.

Sammy's team and kazuyuki's team in the Chibikko Tournament worked hard, and performed well in such high-level competition.

The coach would like to extend his gratitude to the three lady managers whose attendance records were very good, even during the hot summer months.

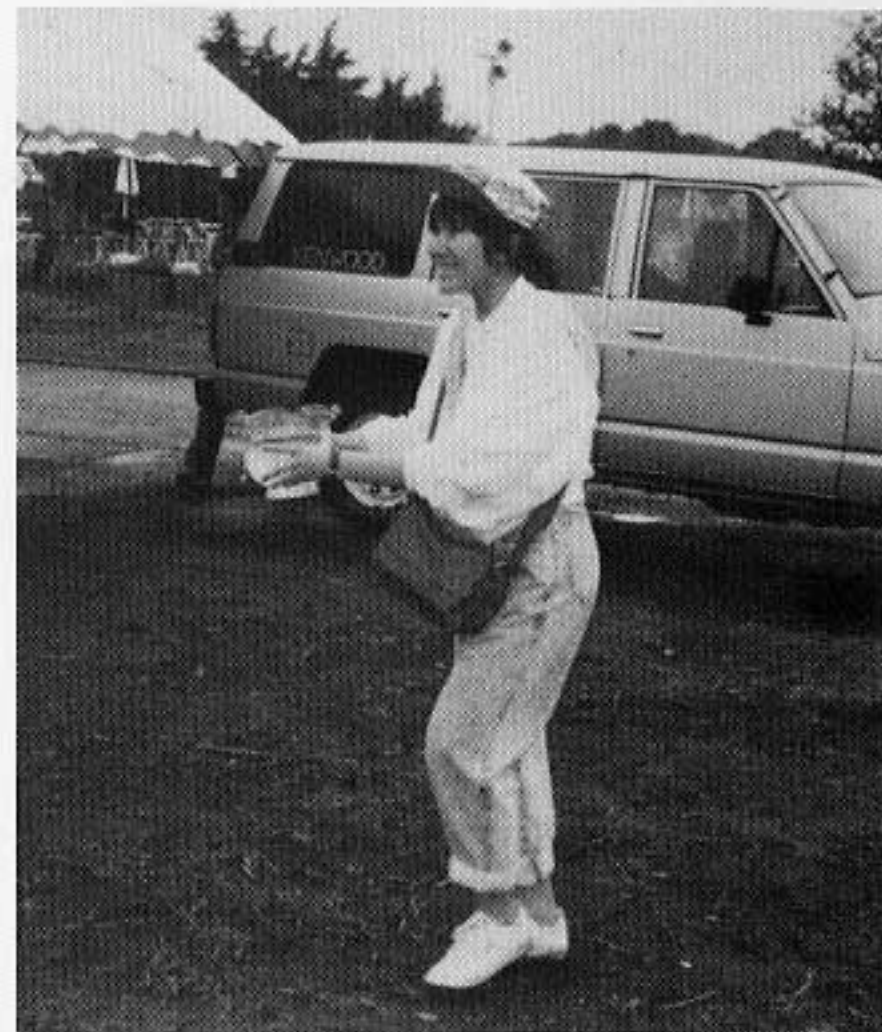
Honmoku Fantasy


My father was always walking ahead of me
And I was always seeing his back...
His back that was so broad and warm

My father was always thinking ahead of time
And I was always following his way...
His way that was so rough but straight

One day I want to catch up with him
And walk side by side
Seeing the world with my own eyes

My father will probably look into my eyes
And tell me he's glad
That I have come this far

But he'll soon face forward
And walk on
Heading towards his goal

One day I want to walk ahead of him
And show him how big my back has become
That I no longer have to walk behind him

But I cannot do that
And I don't want to do that
Because I love seeing my father's back...

My father's back is my everlasting goal
And I will keep on striving for it
Because my son will already be starting
To walk behind my back

This is the day
For the expanding men
That shape is their shade
There where they used to stand
It seems like only yesterday
Sweet ramblers
Wild mumblers
That's all in the past

You call them fools?
You say it's a crazy scheme?
But this one's for real
They've already bought the dream
So useless to ask them why
Throw a kiss and share the smile
They're ready to cross the fine line

FANTASY

Every man has a place, in his heart there's a space,
And the world can't erase his fantasies...
Take a ride in the sky, on our ship fantasii...
all your dreams will come true, right away

And we will live together, until the twelfth of never
our voices will ring forever, as one...
Every thought is a dream, rushing by in a stream,
bringing life to your kingdom of doing...
Take a ride in the sky, on our ship fantasii...
all your dreams will come true, miles away
Our voices will ring together, until the twelfth of never
we all, will live forever as one...

Come to see, victory, in the land called fantasy
loving life, a new decress, bring your mind
everlasting liberty...

Our minds will explore together, old worlds,
we conquer, forever
we then, will expand love together, as one...

Come to see, victory, in land called fantasy,
loving life, for you and me, to behold,
to your soul is ecstasy
You will find, other kind, that has been in search of you,
many lives has brought you to, recognize it's your life,
now in review...
And, as you stay for the play, fantasy, has in store for you,
a glowing light will see you through...
It's your day, shining day···all your dreams come true
As you glide, in your stride with the wind, as you fly away
give a smile, from your lips, and say...
I am free, yes I'm free, now I'm on my way

I don't have anything special to say. Just remember that there was this "awful" "organized" class and staff '88. Good luck everybody!! :)

Since I was out selling the ads during the Forward time, I did not know that you guys finished it on time. I once again thank you all! I Love You!

I have no special comment. Thank you, sorry, good bye, and good luck to everyone.

P.S. Thank you Mr. Eymard for all the pictures!

After "all" the Layout editor's sarcastic remarks and tons of work that I had to endure, I want you guys to know that I was the "en no shita no chikara mochi"!! Think twice, everyone, before becoming a layouter.
Thanks,
Jeff

I want to say sorry to all of the Forward staffs. Even though I tried to work for Forward my cute honey Wouldn't let me go. but don't blame her.
Colgate Mitsushima

Hey Juniors! Make sure that your Forward is full of originality. Don't dare imitate previous ones. And also choose a "TRUSTWORTHY" Business Manager.
Bye-Bye to ALL,
Asahi

Well, it's all over now! I thank the Forward staff and Kimisato the Photoman for listening to my WAGAMAMAS. Thanx a lot! Love you all,
Yuh-Huah "The VRA Editor" Tsui

Dear Kimisato
I'm so sorry that I can't pick on you any more. Thanks for many things.
P.S. Was I really the Forward staff?
Bye Bye

FORWARD STAFF '88

CONGRATULATIONS to the Forward staff for the excellent work! The year was full of surprises. This is the first time in many years for a Forward staff

- *to be so well-organized*
- *to work so collectively*
- *to get so much work done during the elective periods*
- *to meet the deadlines*
- *to not go "overnight"*
- *to manage the ads so efficiently*

The credit goes to Billy Reyle, the Editor-in-Chief, for his leadership, to Yuh Huah Tsui, the Layout Editor, for his ability to get things done, and to the staff for its hard work and perseverance.

Moderators: Mr. P. Eymard

Editor in Chief: Billy

Dear Editor: This must have been the only year that the Forward Staff finished their job so early. Do you know the reason? Of course you were wonderful, but also because of the superb staff you had. They were all so ORGANIZED AND ENERGETIC; 'twas amazing. Anyway we all give you big hands for finishing the 1988 Forward on time!

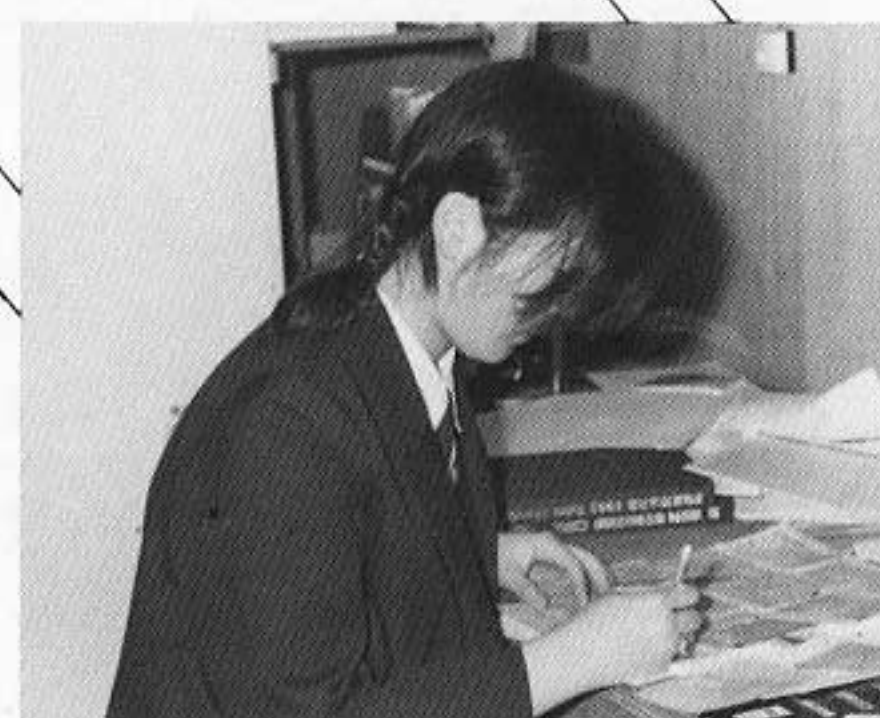
Layout Editor: Awa

Hey, layout editor, are you happy that everything's over by now? You would not take this job again, would you? It's a real pain to stay till late and cry for food and home, but at times it was good 'cause we didn't have to hand in our term paper so early, isn't it right? Awa, you are free from that dreadful fear that you might have to come back from Okinawa at last.

Layouter: Jeffrey

Jeff, since we, the literary, were in the other room most of the time, it's hard for us to figure out what you were doing in that crowd. But we're sure that you – our senior class president – were doing a fine job, right? You know that our class is never organized, but what did you feel about the Forward Staff? (We bet that it's the same.)

Layouter: Miri

How many pictures were you able to collect? Tens or Hundreds, or maybe ______ albums? But it's O.K. cause you were also one of the precious serious laborer. You really did well while some harassing comments flew over your head. We're quite definite that you acquired "perseverence" throughout this year.


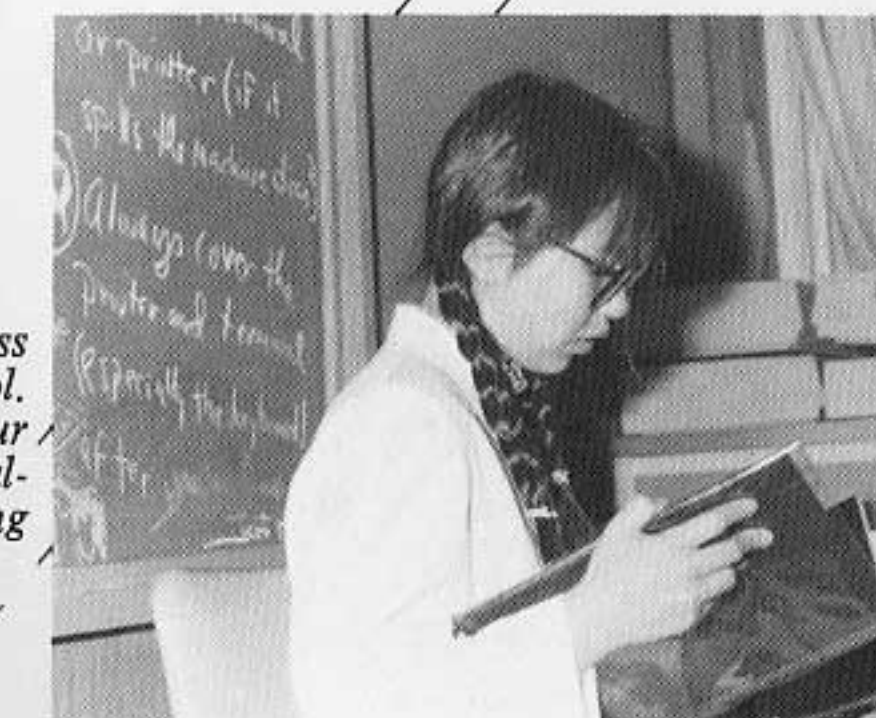
Art: Kosuke

Were you really the member of this Forward? We hardly saw you in the Forward room, but we did see you playing in the hallway with (guess who?) Well, it was good that you could get the license. Your boisterous existence was a pain in the neck (just joking). Anyway your artistic talent is superb.

Photographer: Michael

Hi, you've had the best priority to watch T.V. all the time, while we were spending such a boring time. Although we couldn't recognize you in that crowded room, you were one of the most diligent members despite the fact that you were always being teased by some other members.

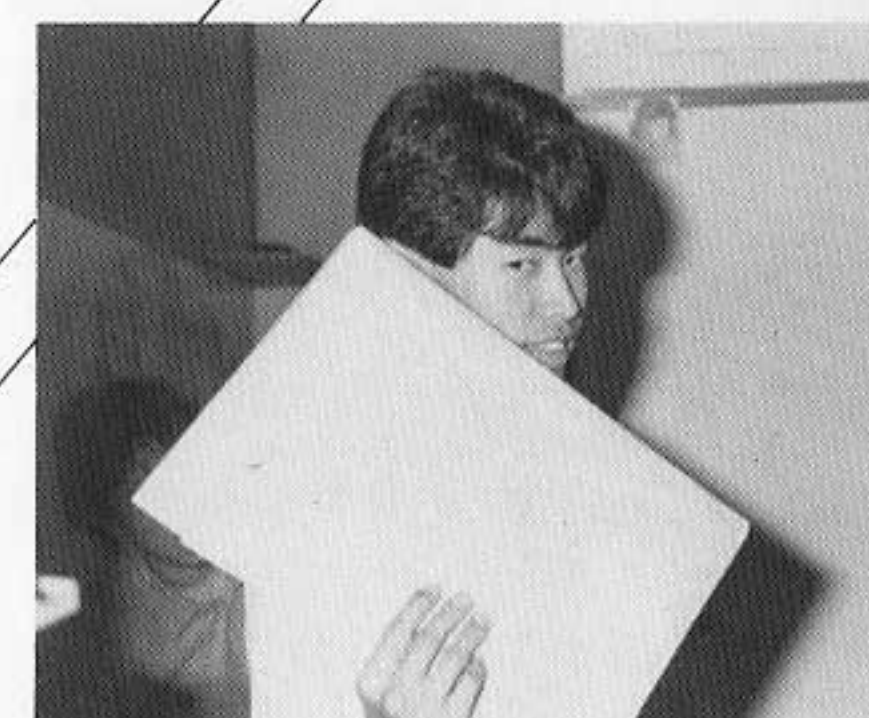
Literary/Typist: Tomoko

Were you able to learn the names of the students? I guess you can recall most of the students' names in this school. Weren't you lucky to have been able to train for your future career! I guess you'll become a good typist although you may have trouble correcting your typing errors.


Literary/Typist: Kaori

Although we were more like the Chronicle members rather than Forward staff, you should be satisfied cause you've got your reward, right? Right. Thanks a lot for your great contribution, especially for giving in your unique ideas. Let's keep in our memory box the fun and exciting times we had in the Computer Room STUDYING the previous Forward books.

Ads Layouter: Asahi

Hey, you were able to succeed to your brother's job. Although you seemed to have had a hard time killing your time while Tetsuya was away, life wasn't as bad as you think after all, was it? We have a good advice for you: Just take it easy and have fun; be more optimistic and life will appear more fascinating and pleasant to your eyes.


Business Manager: Tetsuya

Weren't you lucky to be able to come to school by car most of the time? But I feel sorry for you because you'd always missed part of Dr.'s exciting Ethics-the only time when you could discuss and talk of your own interests and quarrel with Jien. We all thank you for your "mouth" cooperation; we ENJOYED it.
